**Date:** Saturday, September 9, 2017 10:20:10 AM

---

Thank you for providing clarity as to dates of numbers. Moving forward, will the new numbers be verified/ updated at the end of each operational period?

---

**Subject:** M6H1 Harvey Response: ACTION NEEDED - Reuters Media Query

Good morning,

Need your approval ASAP to provide this response to Reuters reporter. Thanks. -- Terri

Terri White  
UC - EPA PIO

Media Inquiry 9/7/17

Reuters: Reporter Emily Flitter 646-281-6056 [emily.flitter@tr.com](mailto:emily.flitter@tr.com)

Requesting information concerning the location of all Harvey related oil spills, the effects of those spills, the company names, and any action taken.

**Response:**

Responders are fully integrated in a Unified Command under Emergency Support Function (ESF) 10 with EPA, U.S. Coast Guard, Texas Commission on Environmental Quality and the Texas General Land Office.

The ESF-10 area of operations has been divided into three geographic branches spanning Corpus Christi to Port Arthur.

As of Sept. 7, approximately 1,000 targets ranging from 5-gallon containers to facilities, vessels and platforms have been assessed and evaluated for response action, including removal and disposal.

Currently, the Unified Command is responding to 15 physical facilities that have reported spills.

Response teams will continue to evaluate affected areas and determine necessary actions to be taken.
